## ▼ Academic Achievement Indicators ▼

Arizona's Instrument to Measure Standards (AIMS) is designed to measure student achievement of the Arizona Academic Standards. Effective with the high school Class of 2006 (eighth graders in 2001-02), students must "Meet the Standard" or "Exceed the Standard" on all portions of AIMS or pass an AIMS Equivalent Demonstration (subject to approval by the state Board of Education) in order to be eligible for a high school diploma. High school students who did not attain "Meets the Standard" or "Exceeds the Standard" in reading, writing and mathematics will have additional opportunities to retake the test in their junior and senior years. Students in grades 3, 5, and 8 also take AIMS.

### AIMS Results <sup>1</sup>, 2000-01

Grade 10 (Class of 2003) <sup>2</sup>		Number Tested <sup>3</sup>	MS	FFB	A	M	E	C
Reading	School	796	523	10%	14%	56%	18%	NA
	State	49321	519	10%	22%	53%	15%	NA
Writing	School	775	498	7%	45%	46%	1%	86%

Mathematics	School	805	496	31%	18%	30%	21%	NA
	State	47215	479	50%	19%	21%	10%	NA

<sup>1</sup>Results reflect student performance on the English form of AIMS.

<sup>2</sup>Class of 2003 is the cohort of students who began 9th grade during the 1999-2000 school year.

<sup>3</sup>\*\*Items of data containing information about fewer than ten students have been replaced with (\*\*) to protect student privacy.

--Some columns contain dashes (--) to indicate "not applicable" or "no data available."

#### Legend

- MS - The Mean Scale Score (average) on a 200-800 scale. A student must have achieved a scale score of 500 to meet the standard. Scale scores are not comparable among content areas.
- FFB - Percent of students who Fell Far Below the standard
- A - Percent of students who Approached the standard
- M - Percent of students who Met the standard
- E - Percent of students who Exceeded the standard
- C - Percent of students who completed AIMS requirement. There are two ways to meet the AIMS requirements for high school writing: (1) the student scores at either the "Meets the Standard" or the "Exceeds the Standard" performance level; (2) the student scores at the "Approach the Standard" performance level and obtains an average trait score of at least 4. Students who complete the requirements do not need to retest. This percentage includes students who meet the requirements either way.

## ▼ Mathematics Education and AIMS ▼

On April 24, 2000, the state Board of Education amended the high school graduation requirements to include the following: "Effective with the graduating class of 2004, the two required math credits shall be taken consecutively beginning with the ninth grade and course content shall reflect Academic Standards preparation for proficiency at the high school level." Parents should verify with the school that their ninth grade students are enrolled in one or more mathematics courses that provide instruction in the state Board-adopted mathematics standards that lead to proficiency in high school. Students who begin the ninth grade during the 2001-02 school year should be enrolled in a mathematics sequence that is aligned to the state's mathematics standards and includes instruction in the concepts and performance objectives that will be assessed by AIMS. The Board's amendment to the high school graduation requirements should not be interpreted to mean that all ninth grade students must be enrolled in any *particular* course. **The Board's intent is to assure that all ninth grade students are enrolled in courses that prepare students for success on AIMS.**

## ▼ Academic Achievement Indicators ▼

In 1997 and 1998, students in grades 3 through 12 were tested in reading, language and mathematics using the standardized, nationally norm-referenced *Stanford Achievement Test, Ninth Edition* (Stanford 9). In 1999 and 2000, students were tested in grades 2 through 11. **Students were tested in reading in grade 1 and reading, language arts and mathematics in grades 2 through 9 in 2001.** The percentage of eligible students tested (%) and the school's percentile rank score are presented below. State percentile rank scores (AZ) are provided for comparison. Also, note that the percentile rank scores for the nation are 50 for all content areas in all grades.

Under the Family Educational Rights and Privacy Act of 1974 (FERPA), no individually identifiable references to students may be made. Therefore, items of data containing information about fewer than ten students have been replaced with (\*\*) to protect student privacy. Some columns contain dashes (--) to indicate "not applicable" or "no data available."

## ▼ Measure of Academic Progress ▼

Arizona's Measure of Academic Progress (MAP) is an indicator of student academic growth from one year to the next. The results are based on the *Stanford Achievement Test, Ninth Edition* (Stanford 9), given in 2000 and 2001. MAP includes only those students who were tested both years in consecutive grade levels at the same school or who started the school year in the same school in which they were tested in 2001. A student achieves One Year's Growth (OYG) if he or she remains in the same Stanine<sup>9</sup> or advances a Stanine from one year to the next. The percentage of students achieving OYG at the school is reported below.

<sup>9</sup> Stanines are normalized standard scores that range from a low of 1 to a high of 9, with 5 designating average performance. National Stanines, like National Percentile Ranks, indicate a student's relative standing in the national norm group (Source: Harcourt Educational Measurement).

**The MAP is an elementary school (Grades 2-8) indicator only; therefore, no data to report.**

## ▼ School Safety ▼

The purpose of this section is to provide parents information about what the school is doing to promote a safe and orderly environment for learning. The *2001 Comprehensive Health and Prevention Program Survey Annual Report* provides additional information on Health and Prevention Programs, School Safety and Security Measures, Policy Violations and Expulsions at [www.ade.az.gov/ResearchPolicy/chapps/](http://www.ade.az.gov/ResearchPolicy/chapps/).

### School-level Efforts to Ensure a Safe and Orderly Environment for Learning

The Mesa USD and Mesa High are committed to ensuring a safe and secure environment for instruction and learning. To achieve this, we have an active program of prevention and enforcement through the collaboration of school, police and probation officials. Clear and concise student behavior rules and expectations are set and aggressively, fairly and consistently enforced. Additionally, students receive instruction in the form of Law Related Education through the Arizona Safe Schools Program.

Total number of incidents that occurred on the school grounds that required the intervention of local, state or federal law enforcement (A.R.S. § 15-746.6).
